OBJECTIVE

Third-year B.Tech Computer Science & IT student with hands-on experience in AI/ML, data dashboards, and team-based hackathon delivery. Seeking the Business & Technology Delivery New Associate internship at Accenture (Singapore, May–Aug 2027) to apply technical skills to real client problems.

EDUCATION

B.Tech, Computer Science & IT Expected 2028
Symbiosis Institute of Technology (SIT) Nagpur, Symbiosis International (Deemed University) **CGPA: 7.37**

EXPERIENCE

AI/ML Intern | Maincrafts Technology

- Worked on machine learning pipeline development as part of an AI/ML internship.

Intern | IBM SkillsBuild

- Designed and built an AI-powered Interview Trainer Agent on IBM Watsonx.ai to help candidates practise interviews.
- Delivered project documentation and internship deliverables as part of the program.

PROJECTS

Healthcare Institutional RoI Dashboard (SHREEDHA Hospital) Hackathon

- Built a solution for Smart Hospital Accounts, Billing and RoI Management, turning institutional healthcare data into decision-ready analytics.
- Worked in a team on a real-world problem statement from SIT Nagpur.

AI-Based Intelligent Video Analytics for Border Surveillance SIH 2026 (SIH26187)

- Worked on a Smart India Hackathon problem for Sashastra Seema Bal (SSB) focused on AI-driven video analytics for border monitoring.
- Collaborated in a team to scope the solution approach and technical design.

Multi-Agent AI Coding Assistant (Research Paper) In progress

- Contributing to a research paper on a multi-agent AI coding assistant (ACEx); currently at the introduction and literature review stage.

POSITION OF RESPONSIBILITY

Technical Team Member | International Conference, SIT Nagpur

- Part of the technical team supporting the International Conference at SIT Nagpur.
